

THE MORNING APPEAL.

SUNDAY..... JUNE 2

THE SEED SWINDLE.

Some months ago J. Sterling Morton, Secretary of Agriculture, charged that the Agricultural department was merely a dumping ground for the seeds left over from year to year on the hands of the dealers.

This seems to be about the size of it. Some weeks ago the APPEAL received a large consignment of seeds from Senator Stewart with instructions to distribute them to the people of Carson. The seeds were distributed, but that is about all the good they ever did to the parties who received them. From all sides comes the complaint that only about one seed in a packet has enough vitality left in it to come up. We planted some of the seeds and found them absolutely worthless. They had been lying about the agricultural department for years and were probably turned in during the Polk administration.

It is evident that the Department is imposed on by the seedmen who palm off their worthless stock on Uncle Sam through political channels. Such things discourage agriculture and the men who are engaged in the swindle ought to be in jail.

A good way and a simple way to check this evil would be for Congress to enact a law compelling all seed men to plainly stamp the date of the year in which the seed was grown, on each packet of seeds put up.

A Suggestion.

At a certain Democratic State Convention in California when "nominations went a begging," several citizens of foreign birth were nominated for the express purpose of obtaining the foreign vote. After the assurances that each candidate should strengthen the ticket by bringing to it votes of his nationality, Judge Joseph T. Hoge, the eminent jurist and bosom friend of good and great Lincoln, rose from his seat and in his inimitable manner suggested, that it might be a good thing to put a native born citizen on the ticket in order to catch the floating American vote.

Now for the application of this story: The foreign trade of the United States is less than four per cent while the domestic trade is over ninety-six per cent of the whole. Will not someone kindly suggest to the gold bugs who are so apprehensive of threatened disaster to the foreign (4 per cent) trade, that it probably would be a good thing in a business sense, as well as a virtuous, wise and patriotic policy, to do something towards retaining our home market, which is over ninety-six per cent of all the trade of the United States.

Silver dollars are legal tender in America. If our people have a sufficient volume of money to do the business of the country, they would hardly miss the foreign trade in the increased activity of the home market. Free coinage of silver will relieve the situation. If money is scarce business will be dull.

A Silver Democrat.

The Saarman Case.

The Courier has the following: The Courier believes a heavy reward should be offered by the County Commissioners for the arrest and conviction of the murderer of Mrs. Saarman, and the reward offered by the county should be supplemented by a liberal sum from the State. This action might bring out evidence that could not otherwise be obtained.

Contrary to the expectations of the Carson Tribune, there seems to be no likelihood at present that the husband of Mrs. Saarman will be arrested and charged with her murder. All agree that the old man acted strangely on the day of the murder, and some people think that possibly that he killed his wife, but the relatives of the couple, and many others deeply interested in clearing up the mystery, are very confident that Mr. Saarman is innocent. We sincerely hope that he is, and that the guilty party will be caught and punished.

The Beef Market

N. H. A. Mason tells the Reno Gazette that the outlook for the beef market the coming fall, is very bright. He says the Eastern market is bound to want Nevada beef and that the indications are very flattering for a stiff market West. He says Nevada has disposed of all of her surplus beef, and a demand for Nevada cattle will be made early in the summer and continue until the close of the year. Stock cattle are looking up a little.

A Kentucky woman is said to have secured a divorce on the ground that her husband wanted to name the baby Grover. She was not only entitled to a divorce, but to the gratitude of the country as well.

Now is the season of the year when you lay in your supply of wall-paper. John G. Fox has some new designs and such a variety on hand that you cannot help be satisfied.

For Over Fifty Years.

Mrs Winslow's Soothing Syrup, has been used for children teething. It soothes the child, softens the gums, allays all pain, cures wind, colic, and the best remedy for Diarrhea. Twenty five cents a bottle.

ICE. ICE. ICE.

The only pure ice in the market is that sold by Dr. J. M. Benton. It is cut on the Carson River—from pure, running water and not formed on stagnant pools, swarming with animal life. It is ice from mountain water that has its origin in the snow capped peaks of the Sierras and means health as well as coolness to the consumer.

An Offer.

A reduction in charges will be made for one year, to beginners, not older than eleven years. This offer is void after next September. For further information see Phillip Krall, teacher of piano. May 10

Keep Your Money at Home.

It should be the policy of Carson people to patronize every home industry. Support those who support the town by living among us and spending their money here. Such a man is Prof. Geo. Lamy, the instructor and tuner. Prof. Lamy's ability in all branches of his profession has been sufficiently demonstrated, and above all he is a resident and citizen of Carson. Engage him and keep your money at home. m12
